

Home Delivery – Program Guidelines

Last Updated: June 2021

Home delivery is intended to serve clients who live in Franklin who have difficulty visiting the Franklin Food Pantry in person. This includes but is not limited to neighbors who:

- Homebound due to illness, medical issue (e.g., surgery), disability or other issues
- Experience constraints due to caring for disabled, ill or elderly family members
- High risk of serious illness from COVID-19
- Transportation challenges

The program is not a full shopping service. Franklin Food Pantry staff will work with neighbors to determine the best FFP program to meet their needs.
